Attorney Docket No. 3135-061626

Customer No. 28289

**REMARKS**

The specification amendments have been made in order to conform this patent application to customary United States patent practice. All pending claims have been cancelled and rewritten as claims 25-49 in order to eliminate the multiple dependencies and to conform the claims to standard United States patent practice.

A copy of the added Abstract is attached for insertion into the application.

Examination and allowance of pending claims 25-49 are respectfully requested.

Respectfully submitted,

THE WEBB LAW FIRM

**DISPENSING DEVICE FOR CONSUMPTION OF A FLUID  
WITH AN OUTWARDLY MOVABLE STRAW**

**ABSTRACT OF THE DISCLOSURE**

The invention relates to a dispensing device for a fluid with a valve which is placed on the dispensing device and has an outlet opening, and comprises a tube connected to the outlet opening of the valve, wherein the tube is at least partly flexible, the tube normally extends wholly within the casing of the cap, and before use the tube can be moved at least partly outside the casing of the cap. Such a dispensing device is hereby obtained with which a greater part of the content can be administered to the user. A more aesthetic appearance is furthermore obtained; the user is only connected to the relevant dispensing device by a tube, which gives the appearance of drinking from a glass with a straw.
